

2010 Missouri Exports

Missouri's fourth quarter exports were up over 16% from the third quarter of 2010. This brings the overall Missouri 2010 export total to \$12.9 billion, an increase of over 35% from the 2009 total. Nearly every Missouri export category increased in 2010, led by sharp gains in its top two export categories, Transportation Equipment (50%) and Chemicals (41%). Transportation Equipment gains were driven by a 94% increase in aerospace exports; while a 57% increase in basic chemicals was the primary driver in Chemical exports.

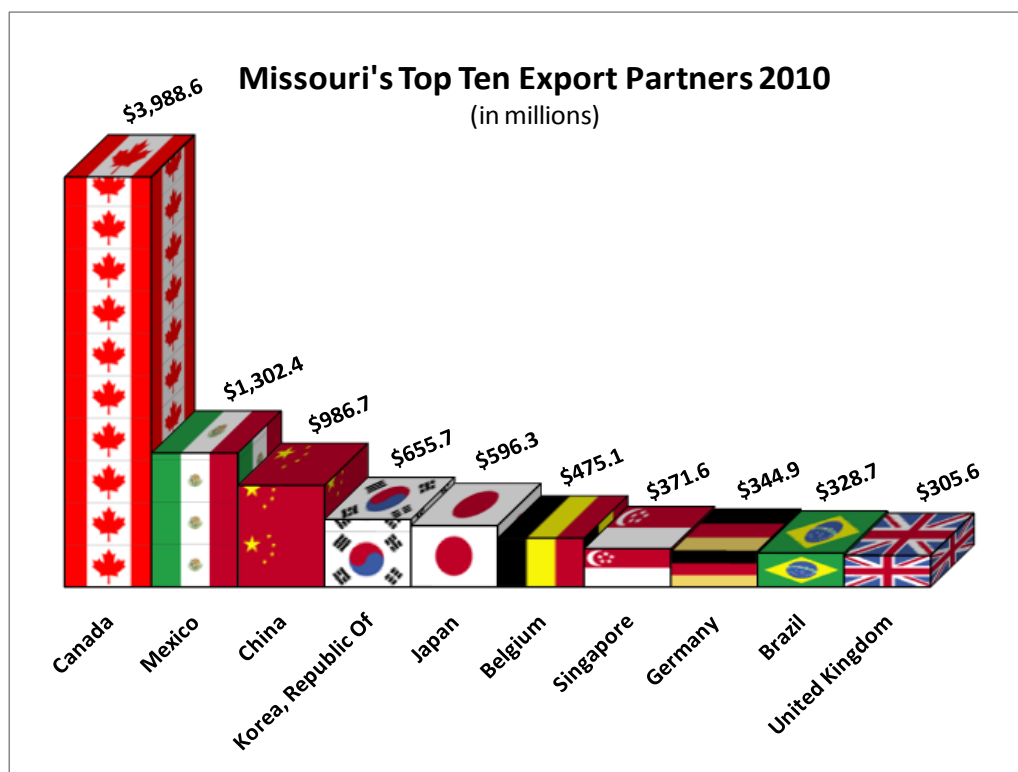

Fourteen Missouri industries each topped \$160 million in export sales in 2010. They include transportation equipment (\$3.0 billion), chemicals (\$2.7 billion), machinery (\$1.4 billion), food and kindred products (\$1.2 billion), electrical equipment (\$662 million), computer and electronic products (\$632 million), fabricated metal products (\$443 million), minerals and ores (\$440 million), waste and scrap (\$421 million), agricultural products (\$421 million), primary metal manufacturing (\$287 million), plastic and rubber (\$237 million) miscellaneous manufactured commodities (\$198 million), and printing, publishing and similar products (\$167 million).
