Data for this analysis has been extracted using Burning Glass Technologies, Labor/Insight™ tool that collects information from over 17,000 web sources, including job boards, newspapers, large and small employer websites. Missouri Economic Research Information Center (MERIC) uses this data to compile and publish reports at the State and Regional Workforce Investment Areas. While this analysis presents a broad picture of hiring activity and serves as a measure of labor demand, it does not capture openings that are filled through other networks.
